

NCAT Fiscal Year 2016 Annual Report

NATIONAL CENTER
FOR APPROPRIATE
TECHNOLOGY

NCAT celebrated **40 YEARS OF SERVICE** in 2016 as a driving force in sustainable agriculture and energy across the country. As part of that celebration, we honored the legacy of all those who came before for their unwavering commitment to healthy foods and clean energy. We recognize the dedication of our board, staff, and volunteers who continue this commitment.

As part of our 40th anniversary celebration, we installed a **45.4** kilowatt photovoltaic solar array at our headquarters in Butte, MT. This array will generate enough electricity to power the building year-round for the next **25** years.

We arranged for **10,722** pounds of local, healthy food to be served in schools.

25,883 elementary kids learned about local, healthy foods and good nutrition from our **FOODCORPS** service members.

103,124 low-income people found local resources for paying utility bills through our **NATIONAL ENERGY ASSISTANCE REFERRAL** program.

Our Energy Services staff helped nearly 100 ranchers, small businesses, government agencies, and organizations save **65,152,445** kilowatt hours of electricity.

5,273 people learned about energy efficiency practices from our **ENERGY CORPS** AmeriCorps members.

We helped low-income residents install energy-saving weatherization kits in **302** homes and apartments.

Sustainable agriculture workshops and presentations by staff reached over **47,000** attendees.

Agricultural producers accessed material from our **ATTRA** website over **590,000** times.
