

NCAT Fiscal Year 2015 Annual Report

NATIONAL CENTER
FOR APPROPRIATE
TECHNOLOGY

The National Center for Appropriate Technology served more than 150,000 individuals and organizations during the year, helping to address challenges in sustainable agriculture, sustainable and renewable energy, and sustainable community development.

79,486 low-income people found local resources for paying utility bills through our **NATIONAL ENERGY ASSISTANCE REFERRAL** program.

We helped nearly 100 ranchers, small businesses, government agencies, and organizations save **54,948,300** kilowatt hours of electricity.

20,064 elementary kids learned about local, healthy foods and good nutrition from our **FOODCORPS** service members.

4,829 people learned about energy efficiency practices from our **ENERGY CORPS** AmeriCorps members.

We installed energy-saving weatherization kits in **522** homes and apartments.

We arranged for **15,429** pounds of local, healthy food to be served in schools.

We provided more than **28,000** responses to technical assistance requests about sustainable agriculture.

Agricultural producers accessed material from our **ATTRA** website over **2.1 million** times.
